I want to express my gratitude to Pulkit for his outstanding efforts on Dynamic GP/Smart Connect and Navision tickets within such a short timeframe. Recently, he successfully resolved multiple bugs in the accounting system. His excellent collaboration with CS and PM to understand the requirements for critical tickets has been greatly appreciated. He consistently conducted thorough development testing and exhibited a strong willingness to learn. He is now the primary owner of the Dynamic GP accounting system. Thank you so much for all your hard work. Keep up the excellent work!
